

ISSUE 11: A CROSS-STITCH IN TIME | INSTRUCTION BOOKLET COVER

Set your printer to double-sided printing. Print as many copies as you need on to heavy weight paper stock. Using a sharp knife trim the pages down to size, scoring with a bone folder and folding down the centre as indicated by the dashed line. Insert the inner pages (separate download file) and either punch small holes very close to the spine to bind with embroidery floss, or staple together.
