STYLE GUIDE

ISSUE 13: 5,4,3,2,1... CELEBRATE | MATCHBOX WRAPPER TEMPLATE

Our NYE matchbox cover doubles as a placecard. Available in 7 different colours you can mix and match the colours as you please.

There are two sides to this wrapper – a front side (the side that has the date printed on it) and a reverse side (the side where you write your guest's name).

1. Print as many copies as you need onto heavy weight paper stock – one print out for the front side and another for the reverse side.
2. Using the dashed lines as a guide, use a scoring tool, or bone folder to mark the fold lines. Press firmly to leave an indentation in the paper, but not so heavily as to mark or tear the paper.
3. Using a sharp cutting blade, trim the wrappers to size and match an outer and inner sheet together. Using spray adhesive glue both sides together, being careful to align the sides together so they match perfectly with no overhang.
4. Fold along the previously made score lines to indent the folds.
5. Fold the wrapper around the matchbox securing at each side with double-sided tape.
6. When complete, handwrite your guest's name blank right hand panel.
