ISSUE 13: ROCK CHIC | DO NOT DISTURB SIGN

Guests need their rest – give them every opportunity to relax and recover from the wedding celebrations with our nifty door sign.

1. Print as many copies as you need onto heavy weight paper stock – print out one copy, flip the paper and reprint for the reverse side.
2. Using a large hole punch, make a hole as indicated by the dashed line. Using a sharp knife, make a slit, then trim each card to size.
